

INTRO FLIGHT LESSON

TAKE THE PILOT SEAT & PILOT YOUR OWN JOURNEY

\$75

FUN FOR ALL AGES

No PASSENGERS ALLOWED

*PARTICIPANT "STUDENT" WILL NEED TO BE AN AGE THAT
THEY CAN GO WITH INSTRUCTOR WITH NO SUPERVISION*

Your Intro Flight Lesson Starts with a walk around the Outside of the Aircraft with your Flight Instructor. You'll go over Primary Flight Controls; how they work, and their uses. A brief insight to the Aerodynamics that make flight possible will also be discussed. A little on General Aviation will also be included.

Next you will climb into the Pilot Seat and have a discussion on the flight controls in front of you. After the plane is started, your instructor will work with the Control Tower (as you Listen in) to get clearance to the runway. With that clearance he will direct you on the proper way to Taxi.

You will be in charge of taxiing the Plane.

After a Pre-Takeoff Briefing, you will add the Power and Accelerate Down the Runway.

*When he Says "Take Off"
Pull Back & Lift Off in the AIR.*

During Climb Out you will be shown how to use the Flight Controls and Gauges that will direct you through the rest of the flight..

During the flight at around 1000' over Evansville, you will have full Control of the Plane. Your instructor will be "Hands OFF" as you fly your own tour over the area.

After the Flight around town, you will Approach the Airport for Landing. With a little help from the instructor, YOU will Land the Plane!!!

After Landing you will use everything you have learned to Taxi in and complete the lesson.

*After the lesson you can ask any and all the Questions you'd like.
Flying is our Passion & we LOVE to Share it.*

The Complete Lesson will last 45min - 1 hr. including aprx 30 min in the Airplane. This is an Official Flight Lesson and can be logged in a Logbook. It also accounts towards the required flight time for the Private Pilot License

Optional Add ON! \$30

In-flight Video from the Cockpit Including Audio Recorded on SD Card to Take Home
